

Power of Partnership

CVMA SKiCE 2020

Advocacy Education Support Leadership

January 26-29, 2020 - Vail, CO

SkICE is one of CVMA’s longest running continuing education programs created shortly after the Vail resort was founded in the early 60s! Each January, this meeting brings together CVMA members and out-of-state veterinarians to enjoy Colorado’s world-class skiing and to learn from some of the top minds in veterinary medicine. Course subject matter varies each year, but past programs have focused on hot topics in small animal specialties such as dermatology, infectious disease, neurology, cardiology, oncology, emergency medicine, ophthalmology, and more! With lectures in the early morning and late afternoon, attendees have plenty of time to hit the slopes, play in the snow, meet with sponsors, or just enjoy some free time. SkICE offers veterinarians and technicians 14 hours of continuing education credit as well as a family-friendly experience at one of the world’s premier ski resorts.
